eCareRemix Ontology Modifiability

1. **You have just modified both of the eCareRemix ontology variants to support some new requirements. Which ontology variant did you find easiest to modify in this manner?**
   Markera endast en oval.

   - ◯ The import-based variant was easiest to update to support the new requirements
   - ◯ The two variants were equally easy/difficult to update to support the new requirements
   - ◯ The template-based variant was easiest to update to support the new requirements
